WONDERFUL STORM.—Shortly before midnight Wednesday, June 15, the clouds over Owingsville became great, with each other, unnumbered countless lightning bolts and went into action like a terrifying rage. Nothing like it has been heard since the famous bombardment preceding Pickett's charge at the battle of Gettysburg, and all the folks sat up and took notice; that is, all who were not scared too much to remain a sitting posture. Crash! rumbled crash so rapidly that a fellow would not have succeeded in pushing his head back into its place with a window stick when it would make another leap for freedom, and nearly get out of its mouth before he could clap his teeth together.

Back and forth over town the battle raged; now from north to south, then back from south to north, then from west to east. Meantime there was a deluge of rain and a clatter of hail from the sky, and the rain was so heavy that it was enough to blow the water in at open windows, and the windows on one side would hardly be let down before those on another side would have to be attended to, and the others raised to keep the inmates of a room from stifling.

At the end of downtown there were great piles of hail that in some places didn't melt before 6 o'clock next afternoon. Some housekeepers attributed the hail to the fact that the storm was passing over the town.

The most singular part of the thing was that it didn't rain through out the whole of downtown. It was only in the corners of Owingsville that the rain was so heavy that it was enough to blow the water in at open windows, and the windows on one side would hardly be let down before those on another side would have to be attended to, and the others raised to keep the inmates of a room from stifling.

## PER-CENT. CLAUSE Would Bind Grower Hand and Foot.

In Communication Executive Committee of Burley Tobacco Society Shows How Such a Provision Would Work Destruction of the Movement.—Opinion of Lawyers Given in Letter.

In a communication to members the Executive Committee of the Burley Tobacco Society explains why no per cent. clause was inserted in the contract for the 1910 pool, and why such a clause could not be embodied. Accompanying this communication is a letter from Col. John R. Allen, written March 5, in which is stated the opinion of attorneys for the Society. The letters follow:

DEAR SIR:—Some persons who desire the ruin and destruction of the Burley Tobacco Society, and who would in accomplishing their purpose involve the Tobacco growers sound hand and foot into the power of the Tobacco Trust, are through newswriters and the stump demanding that a 75 per cent. clause be inserted in the pledge.

Since there may be honest men who honestly believe that such a clause should be in the pledge, we take this means of telling you why those who have your interests at heart and whom you have chosen to protect your property did not and could not insert in the 1910 pledge a 75 per cent. clause.

The first pledge contained a per cent. clause, and we learned by experience that there is danger in such a clause.

When we took legal steps against men who broke their pledges some lawyers who could make the worse cause appear the better would take the ground that we did not have the required per cent. in our community where officers of the law and public sentiment were in the favor of pooling the verdict would be for the Society.

In communities where the officers of the law and public sentiment were against pooling the verdict would be for the man who broke his pledge. In this way the loss of the pooled tobacco would hardship to the honest members. Seeing the difficulty that it made lawyers advised us not to put a per cent. clause in subsequent contracts.

We include in this circular a letter from Col. John R. Allen giving his opinion on this subject.

The General Assembly has passed all the laws necessary to protect our Society if we use common sense and the light of experience. But to put a per cent. clause in the 1910 pledge would open a gap through which contract breakers could escape.

A per cent. clause in the contract would only make a mark for the Trust to shoot at. If we inserted a 75 per cent. clause the Trust would only have to buy up 25 per cent. and thus make any pool impossible. Having bought the smallest fraction over one-fourth of the crop at good prices the Trust would be able to control the remainder of the crop for anything it was pleased to pay.

The way to get 75 per cent. pledged is to go after it and not to waste time and energy in wrangling about a technicality that would seriously weaken the pool. The only reason that we have not 75 per cent. in the 1909 pool is in the 1909 pool is in the short-sighted men claiming to be the growers' friends made war on us during the late pooling season and confused and misled the people. Don't be misled this time.

Extending the time of declaring the pool to November 1st gives two boards the opportunity to pass on it. The old board had the right to declare the pool off prior to October 1st if in their judgment they deem it best. The new board, elected about October 1st and representing the will of those who have just elected them, will have the right to declare the pool off on or before November 1st.

Recently we mailed you a four-page sheet containing a full discussion of the matters of difference between the Society and those who seek our ruin. We earnestly hope that you will take time to read all that is in those four pages and also the contents of a one-sheet which we shall send you in a few days. It is the farmers' fault to work too much and read and think too little. It is just as necessary to maintain an organization to sell your tobacco at a good price as it is to grow it. Sincerely yours,

EXECUTIVE COMMITTEE BURLEY TOBACCO SOCIETY.

LETTER FROM COL. JOHN R. ALLEN.—Lexington, Ky., March 5, 1910.—Executive Board of Burley Tobacco Society, City, Gentlemen: Mr. Pendleton and myself have gone over the draft of the pledge for the 1910, and return the same with certain amendments and changes which we suggested and which are noted thereon.

We have heretofore advised the board very strongly not to embody in the pledge for 1910 any guaranty of the percentage of tobacco to be pooled or any number of acres to be pooled before the pool becomes effective, and we are glad to know after talking with the board that the majority of the board agree with us in this opinion.

Our experience with litigation growing out of suits against growers for the percentage of certain percentages of the acreage, or a guaranty of a percentage of the amount of tobacco to be pooled before the pool becomes effective was a great detriment to the growers' pool and put us at a great disadvantage, because in every instance the parties plead that we did not have the percentage pooled as we claimed, and it would necessitate, if the same clause were contained in the 1910 pledge, a great deal of trouble and expense and investigation in order to prove that we had the necessary percentage pooled.

Yours very truly, (signed) JOHN R. ALLEN, Attorney.

APPROPRIATED IN FLORIDA.—Fort Pierce Fla., June 11, 1910.—Mr. John W. Honaker, Dear Sir: I have read with much interest your write-up of your trip to Florida, and desire the complete list of papers from March 17 to June 9, 1910, if you are going to issue the matter in pamphlet form I would like to have several copies.

I enclose \$5 to pay for same. You have had some experience with Florida, pine, but as you are in the winter you did not have them at their best. They are now fine, sweet and juicy.

I can send you a crate at prevailing prices. F. O. B. cars here: 24c 25c, 30c 31c, 35c 36c, 40c 41c, 45c 46c. Express rates to your place would be, I think, about \$1.25 per crate.

Thanking you for your nice write-up of the East Coast, I remain, Very truly yours, R. L. GOODWIN.

The ladies of Mt. Pleasant M. E. Church, on lower Flat Creek, will give a box supper at the church Saturday night, July 2.

Four teachers took the examination Friday and Saturday.

## ANNOUNCEMENTS.

We are authorized to announce Will J. Fields, of Carter county, as a candidate for Congress in the Ninth district of Kentucky, subject to the action of the Democratic party.

We are authorized to announce Archibald Dickerson as a candidate for Circuit Court Clerk of Bath County, subject to the action of the Democratic party.

The earth didn't tip up nor Manhattan island sink perceptibly when Teddy landed Saturday night. The unexpected has happened again. Teddy did nothing sensational on his first two days ashore. Sunday.

CANTRELL and Thomas are having a high old time for the Democratic Congressional nomination in the 7th district.

JEFFERSON and some other counties have brought separate suits to test the legality of the recent rulings by the State Board of Equalization. Bath wishes them success.

THE Bryan men in Nebraska are circulating petitions among Democrats and men of all parties in that State asking Bryan to run for United States Senator. That might be just what Bryan doesn't want.

THOSE who can enjoy seeing two great overgrown human nukes kick and batter each other out of shape will have an opportunity to witness that revolting spectacle at Goldfield, Nevada, on July 4, when Jack Johnson, of color, and Jim Jeffries, of white, meet in the squared ring.

NEW MEXICO and Arizona will become States of the Union in a short time, adding more stars to the flag, which will then mean Puerto Rico, the Philippines and the Hawaiian Islands are brought under the constitution. The Democrats rather confidently count on four United States Senators from the new States.
